

ANJALI JHA

Frontend Developer | Web Developer | Aspiring Software Development Engineer

Delhi, India | +91-6203225241 | [Email](#) | [GitHub](#) | [LinkedIn](#)

Professional Summary

Recent B.Tech Computer Science graduate with hands-on experience developing responsive web applications using React, JavaScript, HTML, and CSS. Passionate about building intuitive user interfaces, solving technical challenges, and strengthening problem-solving skills through Data Structures & Algorithms. Seeking a Frontend Developer, Web Developer, or SDE opportunity.

Technical Skills

Programming Languages: Java, JavaScript, Python

Frontend: HTML5, CSS3, React.js, Responsive Web Design

Styling: Tailwind CSS (Currently Learning)

Databases: MySQL

Tools & Platforms: Git, GitHub, VS Code, Vercel, GitHub Pages

Core Computer Science: Data Structures & Algorithms (Java), Object-Oriented Programming (OOP)

Projects

Netflix Clone

Tech Stack: React.js, JavaScript, HTML5, CSS3, TMDB API | [Live Demo](#) | [Repo](#)

- Developed a responsive Netflix-inspired web application using React.js with a clean, user-friendly interface.
- Integrated the TMDB API to fetch and display dynamic movie and TV show content using reusable React components.
- Deployed the application on Vercel and optimized it for a seamless experience across desktop and mobile devices.

Weather App

Tech Stack: React.js, JavaScript, HTML5, CSS3, OpenWeather API | [Live Demo](#) | [Repo](#)

- Built a responsive weather application using React.js and the OpenWeather API to display real-time weather information.
- Implemented city search, loading states, and error handling using the Fetch API for a smooth user experience.
- Utilized React Hooks for state management and asynchronous API integration to render dynamic weather data.

Skin Disease Detection

Tech Stack: Python, TensorFlow, Flask, HTML5, CSS3, JavaScript, CNN, Kaggle Dataset | [Repo](#)

- Collaborated in a four-member team to develop a web application for skin disease detection using a pre-trained CNN model.
- Designed the frontend interface and assisted in integrating the Flask backend with the machine learning model.
- Gained hands-on experience with Flask, TensorFlow, and collaborative software development while working on a real-world ML application.

Education

B.Tech in Computer Science & Engineering

Mody University of Science and Technology, Rajasthan

CGPA: 6.0/10 | **Graduated:** 2025

Senior Secondary (CBSE) | V.V. Niketan High School, Bihar | 2020

Secondary (CBSE) | St. Paul's High School, Bihar | 2018

Certifications & Workshops

- UI/UX Design Workshop Certificate
- Intel Technical Workshop Participant
- Participated in DROID 4.0 & DROID 5.0 Technical Campus Events
