SUMMARY

B.Tech Computer Science graduate with hands-on experience building responsive web applications using React.js, JavaScript, HTML5, CSS3, and REST APIs. Skilled in developing reusable UI components, integrating third-party APIs, and building responsive user interfaces. Familiar with Data Structures & Algorithms, Object-Oriented Programming, MySQL, Git, and backend fundamentals. Seeking entry-level Software Developer, Frontend Developer, Web Developer, or Full-Stack opportunities.

PROJECTS

Personal Portfolio | [Live Demo](#) | [Repo](#)

Tech Stack: React, JavaScript, Tailwind CSS, Vite

- Built a responsive portfolio with reusable components for projects, skills and education.
- Implemented a scroll-triggered 3D photo flip, mobile navigation and downloadable resume.
- Deployed on Vercel with GitHub integration for automatic updates.

Netflix Clone | [Live Demo](#) | [Repo](#)

Tech Stack: React.js, JavaScript, HTML5, CSS3, TMDB API

- Developed a responsive Netflix-inspired web application using React.js with a clean, user-friendly interface.
- Integrated the TMDB API to fetch and display dynamic movie and TV show content using reusable React components.
- Deployed the application on Vercel and Implemented responsive layouts for desktops and mobile screens.

Weather App | [Live Demo](#) | [Repo](#)

Tech Stack: React.js, JavaScript, HTML5, CSS3, OpenWeather API

- Built a responsive weather application using React.js and the OpenWeather API to display real-time weather information.
- Implemented city search, loading states, and error handling using the Fetch API for a smooth user experience.
- Utilized React Hooks for state management and asynchronous API integration to render dynamic weather data.

Skin Disease Detection | [Repo](#)

Tech Stack: Python, TensorFlow, Flask, HTML5, CSS3, JavaScript, CNN, Kaggle Dataset

- Collaborated in a four-member team to develop a web application for skin disease detection using a pre-trained CNN model.
- Designed the frontend interface and assisted in integrating the Flask backend with the machine learning model.
- Gained hands-on experience with Flask, TensorFlow, and collaborative software development while working on a real-world ML application.

TECHNICAL SKILLS
